Big Idea	Current Grade	Rugged individualists settled the West and each group contributed something unique.	Documents that describe the organization and power of the United States.	The charm and overindulgence of the United States was a precursor to difficult times.	Contributions made by powerful industrialists coupled with a great wave of immigration.	Attitudes were extreme toward US expansionism and the US participation in WWI.	The 1920's were spirited and the 30's were dark. This was a time that scarred a generation.

Big Idea	Current Grade	The war of mass destruction burdens the lives of Americans and the world.	Civil Rights protesters demanded the equal treatment of those who had been denied before.	The US and Soviet Union competed for influence over the world.	The 1970s redefined who the United States and Americans were.	The 1980s introduced conservative politics and Reaganomics held sway as the Berlin Wall crumbled, new computer technologies emerged and the social world was transformed.	The 1990s is remembered as a decade of relative peace and prosperity: The Soviet Union fell, ending the decades-long Cold War, and the rise of the Internet ushered in a radical new era of communication, business and entertainment.
